The NDIA has a policy of strict compliance with federal and state antitrust laws. The antitrust laws prohibit competitors from engaging in actions that could result in an unreasonable restraint of trade. Consequently, NDIA members must avoid discussing certain topics when they are together at formal association membership, board, committee, and other meetings and in informal contacts with other industry members: prices, fees, rates, profit margins, or other terms or conditions of sale (including allowances, credit terms, and warranties); allocation of markets or customers or division of territories; or refusals to deal with or boycotts of suppliers, customers or other third parties, or topics that may lead participants not to deal with a particular supplier, customer or third party.

BIOGRAPHIES

KRISTEN BALDWIN

*Deputy Director, Strategic Technology
Protection and Exploitation
OUSD(R&E)*

Ms. Kristen J. Baldwin was appointed Deputy Director, Strategic Technology Protection Exploitation in September 2018. In this role, Ms. Baldwin serves the Under Secretary of Defense for Research and Engineering as the DoD lead for maintaining technology advantage by mitigating exploitation and vulnerabilities of critical missions, programs, technologies, and the industrial base. Ms. Baldwin leads the DoD strategy for Trusted and Assured Systems, Microelectronics Innovation for National Security, and the Joint Federated Assurance Center.

Before this appointment, Ms. Baldwin served as the Acting Deputy Assistant Secretary of Defense for Systems Engineering (DASD(SE)) and Principal Deputy, Systems Engineering, overseeing engineering policy, practice, and the DoD engineering workforce.

She holds a Bachelor of Science in Mechanical Engineering from Virginia Tech and a Master of Systems Management from the Florida Institute of Technology.

DR. JOYE PURSER

*Deputy Director/JDS, Analysis and Innovation Division
OSD, Cost Assessment and Program Evaluation (CAPE)*

Dr. Purser serves as Deputy Director for Analysis and Innovation for the Director of Cost Assessment and Program Evaluation (CAPE) within the Office of the Secretary of Defense. In this role, she leads in the development of quality analytical products for the Joint Staff.

She previously was on-detail as the Defense Science and Technology Examiner within the National Security Division at the Office of Management and Budget in the White House. There, she managed all science-related budget proposals from the Department of Defense; and she advised on how new or developing legislation, policies, world events, or industry activities may affect the technological superiority of the American warfighter.

Dr. Purser earned a PhD in molecular microbiology from the University of Texas and completed undergraduate studies at Georgia Tech.
