The NDIA has a policy of strict compliance with federal and state antitrust laws. The antitrust laws prohibit competitors from engaging in actions that could result in an unreasonable restraint of trade. Consequently, NDIA members must avoid discussing certain topics when they are together at formal association membership, board, committee, and other meetings and in informal contacts with other industry members: prices, fees, rates, profit margins, or other terms or conditions of sale (including allowances, credit terms, and warranties); allocation of markets or customers or division of territories; or refusals to deal with or boycotts of suppliers, customers or other third parties, or topics that may lead participants not to deal with a particular supplier, customer or third party.

REGISTER NOW

2019 APRIL **PROCUREMENT** DIVISION MEETING

Join us in April for the next quarterly Procurement Division meeting! Featuring keynote speakers and expert panels, insights will be provided on topics such as DPA Title III, EU GDPR for U.S. government contractors, the DoD's "Deliver Uncompromised", and DoD expectations regarding supply chain. These topics assist in monitoring and advancing sound and practicable procurement/acquisition policies on matters that affect government/industry relationships relating to this important process; allowing government to obtain needed supplies and services at an equitable price with the least possible disruption of industrial practices.

NOTE: Attendance is limited to NDIA corporate members only; this event is NOT open to press/media.
