

2017

**Joint Annual NDIA/AIA Industrial
Security Committee Spring
Conference**

Onsite Agenda

May 22-24, 2017

JW Marriott Scottsdale Camelback Inn Resort & Spa Scottsdale, AZ

LOCATION

JW Marriott Scottsdale Camelback Inn Resort & Spa
5402 E Lincoln Drive
Scottsdale, AZ 85253
(800) 228-9290

ATTIRE

Appropriate dress for the conference is business casual for civilians and Class B uniform or uniform of the day for military personnel.

ID BADGE

During the conference registration and check-in, each attendee will be issued an identification badge. Please be prepared to present a valid picture ID. Badges must be worn at all conference functions.

PROCEEDINGS

Proceedings will be available on the web through the Defense Technical Information Center (DTIC) approximately two weeks after the conference. All registered attendees will receive an email notification once the proceedings are available.

SURVEY

A survey will be emailed to all attendees after the conference. NDIA would appreciate your time in completing the survey to help make our events even more successful in the future.

THANK YOU TO OUR PREMIERE SPONSOR!

brought to you by

CANDA Solutions, LLC has been building Personnel Security Case Management systems for both Federal Agencies and Government contractors for over 10 years. We've taken Business Process Management systems, major label ERP systems, and generic case management systems and customized them to fit the Personnel Security processes for our customer's usage. What we learned was that Personnel Security systems usually end up as the heart-beat of an organization and they are unique in many ways. Based on these experiences, CANDA decided to invest time and money in the development of an integration-friendly COTS system specifically built for Personnel Security Case Management. We launched this system as Fresh Haystack.

Over the last 3 years, CANDA has deployed Fresh Haystack into multiple production releases of a Security Clearance Processing Case Management System designed to navigate all clearance-centric business cases while integrating multiple internal and external core systems. Our multi-organizational users experience a seamless, role-based, easy to navigate, modular interface that guides the security clearance process through the many touch-points of a fully adjudicated security clearance lifecycle.

Fresh Haystack is a "game-changer", as some of our clients have described it post implementation. A comprehensive, logically structured, user friendly case management system, Fresh Haystack (FH) is a paperless, workflow based and automated Case Management solution built for the specific purpose of streamlining the complex security and background investigation management processes. FH was built to cut cost, increase efficiency, increase productivity, enable automation and deliver visibility into the security clearance process. FH brings clarity to candidates, security personnel, adjudicators, investigators and internal auditors. Our modular system is easy to implement, allowing for a rapid, staged deployment with follow-on releases of enhanced features to accommodate program breadth, secure integration needs and evolving requirements.

We developed Fresh Haystack to provide the Defense Industrial Base (DIB), responsible for our National Security, what is needed in the domain of Personnel Security and Human Resources out of the box, allowing us to focus on the unique challenges within each organization. Fresh Haystack allows quick, Agile delivery – our solution can be configured, installed and used in a matter of weeks.

**THANK YOU TO OUR
ELITE SPONSOR!**

EXOSTAR[®]

Exostar's cloud-based solutions are helping companies mitigate risk and solve identity and access challenges. Nearly 125,000 organizations worldwide leverage Exostar to help them collaborate securely, efficiently, and compliantly with their partners and suppliers. By offering connect-once, single sign-on access across a supplier network, Exostar strengthens security, reduces expenditures, and raises productivity so customers can better meet contractual, regulatory, and time-to-market objectives. Exostar's A&D customers include BAE Systems, Boeing, CSC, Honeywell, Huntington Ingalls Industries, Lockheed Martin, Northrop Grumman, Raytheon, and Rolls-Royce.
