

Combat Survivability Division Awards

NDIA recognizes superior contributions to combat survivability through awards for leadership and technical achievement. These awards are presented at the annual Aircraft Survivability Symposium and recognize excellence across the entire spectrum of survivability, including susceptibility reduction, vulnerability reduction, and related modeling and simulation. Nominees should meet the criteria outlined below:

RADM Robert H. Gormley Combat Survivability Award for Leadership

This award is presented to a person who has made major leadership contributions to combat survivability. The individual selected must have demonstrated outstanding leadership in enhancing overall combat survivability or played a significant leadership role in a major aspect of survivability design, program management, research and development, test and evaluation, modeling and simulation, education, or the development of standards. The emphasis of this award is on demonstrated superior leadership over an extended period.

Combat Survivability Award for Technical Achievement

This award is presented to a person who has made a significant technical contribution to any aspect of survivability. It may be presented for a specific achievement or for exceptional technical excellence over an extended period. Individuals at any level of experience are eligible for this award.

Please Note: Division Awards are presented annually during the Aircraft Survivability Symposium.
