

## **David (Dave) E. Broden**

Dave Broden currently heads Broden Resource Solutions (BRS), a consultant organization focused to assisting clients in business management, program management, and technical direction, and is the Chair of the NDIA Armament Division.

Dave was a member of the organizing committee and is currently a member of the Executive Committee for the National Small Arms Consortium. He has significant experience and insights in regards to DoD sponsored consortia and is uniquely positioned to assist the defense robotics industry in its efforts to form its own such consortium.

Dave has over 40 years of experience in US and international defense and related system and technical program management. Before starting his own consulting practice, Dave worked for Honeywell and a Honeywell spin-out called Alliant Techsystems. He has a B.S. Physics/Mathematics from St. Olaf College and a M.S. Physics/Mathematics from the University of Minnesota.
