

Strength through Industry & Technology

Robotics Division

Integration Committee Update

19 June 2008

The Voice of the Industrial Base

Strength through Industry & Technology

Committee Members

- **Bob DaLee - Chair**
Boeing, Huntsville, AL
robert.c.dalee@boeing.com; 256-461-5581

- *Now recruiting participants!!*

 *The Voice of the Industrial Base*

Integration Committee Mission Areas

- Pursue collaboration between ground robotics and other unmanned system communities, i.e. an integrated unmanned systems approach
 - Open dialog with other NDIA Divisions and other organizations
- Identify integration issues of ground robotics with manned force
- Provide a forum for open dialog with the requirements community
- Identify integration barriers that prevent robotics from being fielded
 - Standards
 - Infrastructure
 - Fielding support
 - Others...

Near Term Tasks

- **Identify POCs that influence unmanned/manned integration**
 - - Other domains: air, maritime, unattended ground sensors
 - - Requirements/User Reps: Army (TRADOC), C2 community, Marines, Navy, Air Force, DHS
 - - RS/JPO, FCS, other service PMOs

- **Generate speaker list and invite a speaker once a year to quarterly NDIA Robotic Division meeting**
