

Strength through Industry & Technology

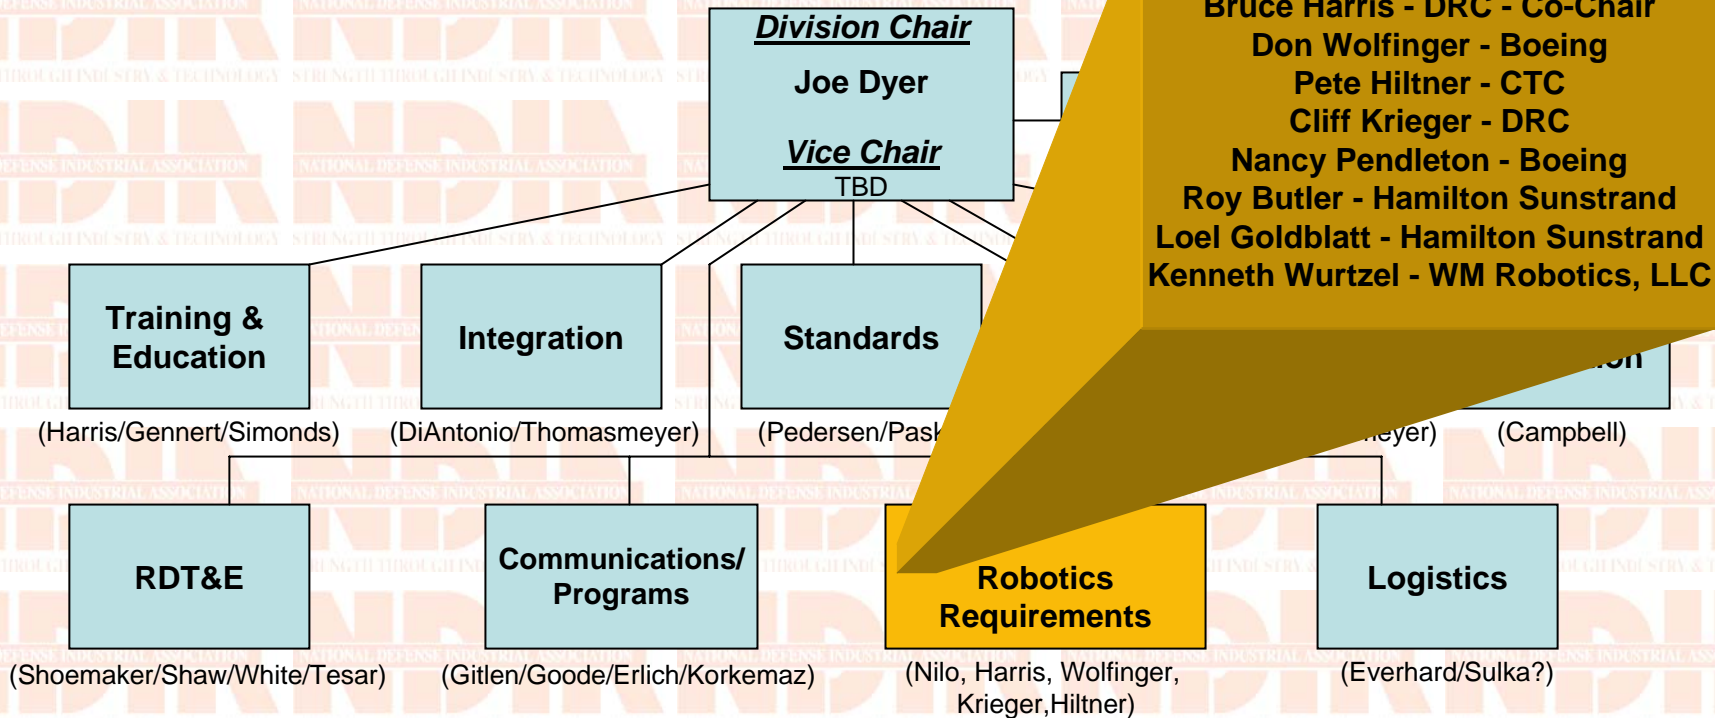

DoD Requirements Committee

Robotics Division

The Voice of the Industrial Base

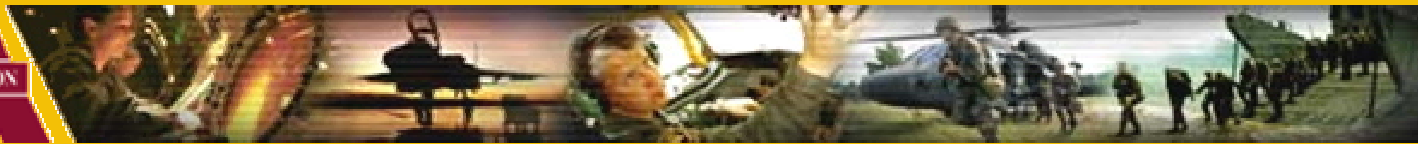

Requirements Committee

PURPOSE STATEMENT

**Serve as a conduit to synchronize industry robotics
technology applications with the capabilities required
by our Nation's defenders.**

TASK LIST

- ✓ **Combined DoD Requirements Committee with the Other Requirements Committee. (Accomplished 27 February 2007)**
- ✓ **Meet with the Joint Ground Robotics Enterprise O6 Council to open discussion and establish an understanding of their capability needs.**
- ✓ **Share user needs with industry to stimulate technology solutions.**
- ✓ **Ensure the requirements committee is in sync with the efforts of the other Robotics Division committees.**
- ✓ **Provide industry perspective to members of Congress and the staff members in coordination with the customers.**
