# AMB Report (con't)

---

- **TPS IPT (TPS IPT)**

- Team continues to meet frequently
- Working closely with the NxTest IPT
  - To determine/define the next gen DoD common test language
  - To determine/define the next gen DoD common RTS
- MIL-PRF-32070 update nearly complete
  - New draft will be available for Service review soon
  - We will be looking for an NDIA ATC review prior to finalizing
- Developing a TPS lessons learned database from service inputs
- Next task
  - Developing a DoD TPS Acquisition and Sustainment Handbook/Process to address the life cycle management of TPSs
  - Address the development of new engineers for Test and Measurement sciences, more specifically in TPS development.
