

# **NDIA Automatic Testing Committee**

## **DoD ATS Liaison**

Bill Ross  
DoD ATS Executive Directorate  
9/11/2011

# DoD Automatic Test Systems Executive Directorate (ATS ED)

---

- DoD ATS Management Board (AMB) last met at Picatinny Arsenal 30 March
- Will meet here at the Conference Wednesday afternoon
  - Updates of IPT's activities
  - Address some realignment and reassignments within the Joint IPTs
- Service Board Member turnover:
  - Capt Fred Hepler – USN and Chairman
  - Dean Johnson – USMC Ground
  - Col Michael Senseney – AF

# Technical IPTs Initiatives

---

- Focus of the technical IPTs has been the future TPS development and run time environments
- Had a very successful Industry Week in May
- The TPS IPT met in early August looking to get its arms around all the services TPS development environments and run time initiatives and ideas
- TPS MIL-PRF-32070 update still being processed through Specification and Standards team
  - This is the version already reviewed by this Committee
- Net-centric ATE functions, next gen EO testing, etc. continue

# Other Notes

---

- Updating the DoD ATS Master Plan and other joint ATS processes documents
- The DoD ATS team will not be presenting at the DoD Maintenance Symposium
  - Not a good fit this year with the topics selected for the Symposium
- The AUTOTESTCON 2011 DoD ATS Plenary Session
  - Will feature a panel of the services ATE operators
  - Also, there will be a display of an NGATS and an RTCASS in their operational shelters
