- 

# Decontamination Sector – CBDAIF

## General Comments from Sector Members

### MEMBER COMMENTS

- **Surprise was registered that with Mr. Reed's departure and the expected increase in funding of Chem-Bio, that funds were being shifted toward vaccines.**
- **R&D is already difficult to justify for Military-only technologies. Budget cuts, delays in appropriations, and shift toward medical countermeasures makes investment in Surface Decontamination hard to justify.**

### MEMBER QUESTIONS

- **In light of recent attempts to streamline or reduce number of products on Dept of State ITAR list are there JPM Decon products that could be moved off ITAR list ?**
  - **How will shift to BioSurveillance and vaccines impact Decon sector?**
  - **Is there a restructuring plan for JPM Decon?**
