Discussion Topics

- ▶ Pulsed sector regarding the Weapons system Reform Act of 2009 – 1 year of implementation.
 - Concern that additional oversight has only caused additional delays
 - Competitive prototyping (likely addressed in another sector)
 - Industry spending resources to develop a prototype to compete in competitive prototyping phase. The winning company/team may never receive follow-on work if program is re-competed or cancelled
 - Cost recovery is difficult

Discussion Topics (Cont)

- ▶ Renewed focus on implementing EVMS in contracts
 - Is it unduly driving cost?
 - Manageable?
- ▶ APBI Concerns
 - Have not seen an announcement for the Spring APBI – Typically “save the date” is out
 - Individual APBI at the JPM level (2 cited)
 - Scheduled for 3 ½ hrs and are only 1 hr/1 hr 15 min
 - Would like more content
 - Delays in slide posting (may be an issue with release process)
- ▶ Industry waiting for ECBC Mission Support Contract award
 - POCs have changed in contracting shop as the KO retired and the specialist has left RDECOM
