9:30 - 11:30 AM	Panel - The QDR and the Potential Impact on the Services Session Focus: The purpose of the Quadrennial Defense Review (QDR) is to determine the nation's defense strategy and establish a defense program for the next 20 years in a constrained fiscal environment. The Secretary of Defense has issued guidance for the development of the force, as well as his principle themes which include: enhanced capabilities to fight wars we are now in, more ISR and rotocraft, grow the Special Operations Force, and procure more lift, mobility and refueling aircraft. The QDR process will continue well into 2010 before the final report will go to Congress. In the interim this session will focus on some of the service initiatives as well as potential investment decisions regarding force structure and programs that may have to be made in order to meet established guidelines. Service representatives will provide perspective on their initiatives as appropriate for this point in the process. Panel - Achieving the Right Capability Balance

Session Focus: Secretary Gates has emphasized an underlying theme in the QDR and in his budget recommendations that we need to think about future conflicts in a different way. The black-and-white distinction between conventional war and irregular war is an outdated model. SECDEF stated, “The future will be more complex, where all conflict will range along a broad spectrum of operations and lethality, where even near-peer competitors will use irregular or asymmetric tactics, and non-state actors may have weapons of mass destruction, mines, or sophisticated missiles.” This session will include discussions on how the Joint Force will adapt to this future environment, not only developing the requisite capabilities, but determining the right “balanced” capability mix. It will include discussions of harbor and coastal defense, mine warfare, Marine Corps Operations, Joint Integrated Air and Missile Defense, and the connection of these operations to overall global maritime and littoral dominance in furtherance of U.S. National Security.

Mr. Jerry Miller, President, Earl Industries, LLC
- 2:15 - 2:45 PM **Panel - Industry - Small Business**
Session Focus: With a change of Administration comes a new National Security Focus, and this has been highlighted by Secretary Gates' changes in the Defense Department and impact of the FY10 Presidential Budget. This session will focus on how small businesses adapt to the challenges of a new Administration and new National Security concerns, such as Irregular Warfare and the cancellation of ongoing Defense programs. The Panel Members are Small/Medium Business Leaders who will address the issues and concerns of small businesses as DoD programs are cancelled, created and modified in a "new" FY10 Defense Budget.

- 8:45 - 9:45 AM **Panel - Balancing Resources in Support of Expeditionary Warfare in Complex Joint Operating Environments**
Session Focus: Secretary Gates' 2010 Defense Budget recommendation focused on balancing valuable resources among programs that support the full range of military operations. While that is the overarching focus for the expeditionary warfare community, an area of particular interest has become bridging the gap between conventional and irregular warfare in a complex Joint Operating Environment. This session will provide insight into the Navy and Marine Corps resource allocations in order to meet the Secretary's intent within the scope of expeditionary warfare. The Panel Members are the resource sponsors who provide the funding for these programs of record.
