

Industrial Committee of Ammunition Producers (ICAP)

Pyrotechnics - Sector Report
Kevin McDonald – Sector Lead
Chemring Ordnance

October 12, 2017

Pyrotechnics Sector Members

- Action Manufacturing Company
- Alloy Surfaces Company, Inc.
- Chemring Ordnance, Inc.
- Esterline Defense Technologies
- General Dynamics - OTS
- Kilgore Flares Company
- MAST Technology, Inc.
- Orbital ATK
- Pacific Scientific Energetic Materials Company
- Pyrotechnic Specialties, Inc.
- R. Stresau Laboratory, Inc.
- Security Signals, Inc.

Major Issues / Challenges

- Critical Defects continue to be an issue for all sector members
 - Critical Plan of Action (CPOA) submittal and approval are difficult and time consuming
 - Government IPT have different interpretations of how to implement CPOA's
 - Too many Critical defects on most TDP's
 - Government IPT's do not consider consequences of production line shut downs:
 - Quality and Safety likely being negatively affected due Critical Defect shut downs
- Contracting/Procurement process very difficult and and typically late
- AIE/AAIE, CCCP, and new PCCA requirements making it increasingly more difficult and expensive to do business with USG.
