- Nammo Talley – Hybrid rocket motor trial success.
- Orbital ATK – Northrop who?
- Orbital ATK – 500th AARGM missile & USN award.
- Textron – successfully trials Fury, LW PG glide munition

Issues, Concerns and Recommendations

- Availability of Holston explosives. An issue into 2019?
 - Some deliveries > 9 months+, delaying programs.
 - USG prioritizing some deliveries to aid but not solve impact.
- Specialty component obsolescence.
 - Is it a bigger supply chain interruption issue than “counterfeit electronics”?
- EU REACH regulations causing challenges
