

Industrial Committee of Ammunition Producers (ICAP)

Demil

Sector Report

Jeffrey Brunozzi– Sector Leader

6 October 2016

Accomplishments/Milestones/Notable Activities

- PM Demilitarization Key Personnel Change this summer
 - Welcome to the new PM-Demil, Mr. John McFassel
- Successful Conventional Demil PMR, September 20, 2016, at Rock Island Arsenal
- Sources Sought Market Survey for Navy 16 Inch Demilitarization

Issues/Concerns/Recommendations

- Threats to Demil funding line (and procurement lines in general) as potential bill payer
 - PEO/PM-Demil initiatives to solidify funding and program stability?
 - Industry can help protect funding if we have situational awareness
- Potential program instability of Congress funding annual OCO accounts versus the base budget
 - Managing resources/technical know how difficult in uncertain environment with large swings in volume

Issues/Concerns/Recommendations

- Status and timeline for the MLRS Demil of assets in South Korea?
 - What are the next steps?
- Technology thrusts to deal with the existing stockpile of assets that will need special processes to safely demil
 - Is there potential DOTC or DOTC-like funding to develop new process and methods?
 - What type of Gov't/Industry partnerships can be developed to further demil technology?
- Concerns with evaluation of pricing between GOGO and Commercial base for demil workshare going forward
 - How are cost comparisons made to ensure fair competition
