Accomplishments, Milestones & Notable Events:

- Raytheon awarded \$8.3M FMS contract for M982A1 **Excalibur** projectiles and components to the Netherlands Government.
- Orbital ATK awarded \$14M contract from Lockheed Martin to produce its **GMLRS** Alternative Warhead.
- GD-OTS awarded \$1.9M contract for 405 ea. **Hawk** Warhead cases to be produced at the McAlester Army Ammunition Plant.

Issues, Concerns and Recommendations

- Single source key suppliers are being strained and some are exiting the business
 - Explosive availability is a current issue
- More and more audits occurring in all areas (Safety, Quality, Security, Environmental, Finance)
 - One member noted that there are now eight (8) different agencies with security oversight (BATF, DHS, DSS, FBI, etc.) -- each with their own audit schedules

Industry Response and Initiatives to Defense Budget Outlook

- White Papers submitted in February to congressional delegates requesting their support to maintain funding for FY17 ammunition programs
