Office of Performance Assessments and Root Cause Analyses (PARCA)

# Overview

- ▶ Vision
- ▶ Responsibilities
- ▶ Functional Organization
  - Policy
  - Data Collection and Validation
  - Compliance

## PARCA EVM Vision

- ▶ Earned Value Management (EVM) is fully embraced by the DoD acquisition community as an inherent part of the acquisition program management value chain and provides program managers accurate and timely insight into cost, schedule, and performance of DoD weapons systems and services programs.
- ▶ PARCA's goal is to increase Earned Value's constructive utility for the DoD firms' managing acquisition programs by reducing the economic burden of inefficient implementation of Earned Value Management Systems (EVMS).
- ▶ EVM is a management tool, not merely a contractually required report.

## EVM Responsibilities

- ▶ Develop, publish, and maintain DoD policy and guidance on EVM practice.
  - Providing an issue resolution process for policy interpretation and implementation issues.
  - EVM Functional Lead for DoD.
  
- ▶ Manage the collection, dissemination and validation of earned value management data.
  - Maintain the Earned Value Central Repository for the Department.
  - Review and approve EVM data requirements for MDAP programs.
  
- ▶ Responsible for EVM compliance
  - Policy for EVM Compliance.
  - EVM Data Compliance.
