

# NDIA PMSC Guides Working Group

January 2014

*Joan Ugljesa  
Dan Butler*

# Objectives

- Review and maintain the five OMB recommended PMSC guides to reflect:
  - Changes to ANSI/EIA 748, policies, and regulations
  - Lessons learned and advancements in best practices for integrated program management
- Also includes the Planning & Scheduling Excellence Guide (PASEG) inherited from the NDIA ICPM
- All guides on a 3-year mandatory review/update cycle from the date of publication of each revision
- Guides Update Steering Group
  - Advises the PMSC Board of changes in policy and regulation that should be immediately incorporated in one or more guides
  - Accepts requests for out-of-cycle changes and determine if the change:
    - Is appropriate and warranted
    - Is immediately required
    - Should be held for next regular update
