

NDIA System Acceptance Guide Working Group

13 April 2016

Buddy Everage

Background

- Initially published in November 2006
 - OMB requested NDIA take on this task
 - Recognized that an equivalent organization to DCMA did not exist to support civilian agencies
- Focus was, and continues to be, on the civilian agencies
 - Applicable to all contractors (i.e., self-assessments)
- Goal – establish a common framework and standard procedure for EVMS certification and acceptance of those certifications among the civilian agencies
- A major rewrite in 2012/2013; published in 2013
- A 3 year review cycle

- **Working Group participants**

- Both Industry and Government
- The 2012/13 team included representatives from the following agencies and the contractors supporting those agencies
 - IC
 - FAA
 - NASA
 - DOE
- Looking for similar support

- **Working Group activities**

- Notice of the establishment of this WG sent to IPMD members regarding the kick-off during the April IPMD meeting
- **Sign up working group volunteers**
- Encourage members who may not be familiar with the Guide to read the System Acceptance Guide
- Establish a WG meeting schedule
 - Conference calls
 - Twice a month
