

NDIA IPMD
EVMS Scalability Guide
2019 Refresh Version 2

January 29, 2020

- **Overview**

- Originally developed by the NDIA IPMD Civilian Agency Industry Working Group (CAIWG) to support any agency or organization which would benefit from using EVM in a less rigorous way by implementing a scaled approach
- Organized by EIA 748's 9 program management processes supporting the seven basic principles

- **Activities**

- Guide and comments file distributed in April 2019
- Comments collected and consolidated in June
- Comments received from 8 companies
- Approximately 128 relatively minor updates were made as a result of 58 adjudicated comments
- Board reviewed and approved all changes
- Ready for vote to accept today
