

TECHNOLOGY INTERCHANGE

WEBINAR SERIES

Virtual and Remote Technology for the Workforce V^R/AR

Wednesday, June 16, 2021

1:00 PM - 2:30 PM (EDT)

Cost: Complimentary

Join us for the next in our series of webinars offered by NDIA's Manufacturing Division. In this session, we will hear from Tooling U-SME, a national leader in manufacturing training and workforce development and the NIST Manufacturing Extension Partnership, a public-private partnership with Centers in all 50 states and Puerto Rico dedicated to serving small- and medium-sized manufacturers.

We will cover an overview of VR/AR technologies, market trends and best practices. We will see how MEP Centers are helping manufacturers to utilize technology for remote training and onboarding, and specifically, how they are integrating VR/AR solutions in manufacturing environments to leverage simulation efficiency gains and workforce training. Learn from the leaders in this space, Virginia's GENEDGE and OMEP Center Directors Bill Donohue and Aaron Fox, respectively, as well as Senior Director of Operations for Tooling U-SME, Chad Schron.

This session will include demonstrations of OMEP's Cloud Platform, which includes a Learning Management System that is specifically scaled for the needs of small- and medium-sized manufacturers.

Moderator:

Jeannine Kunz

Vice President

Tooling U-SME

As a recognized authority on workforce development and training for the manufacturing community, Jeannine is focused on building the capabilities of today's and tomorrow's manufacturing workforce.

Aaron Fox

President
OMEP

With over 20 years in management positions, Aaron puts his change management expertise to work for OMEP clients and staff. His passion is providing the leadership necessary to challenge status quo thinking and create a culture of proactive problem solving through continuous improvement.

Bill Donohue

President, Executive Director
GENEDGE

Bill leads a regionally deployed network of Regional Growth Managers and Practice Managers committed to accelerating growth in technology and industrial clusters and businesses, thereby growing Virginia's GDP while helping to retain and create quality jobs.

Chad Schron

Senior Director
Tooling U-SME

Chad is the co-founder of Tooling U. Today, Chad leads the talented Sales, Learning Services, Client Services, Technology, Content, and Operations teams for Tooling U-SME.
