NISPPAC 101

• ESTABLISHMENT: The NISPPAC was created on January 8, 1993, by the President under Section 103 of Executive Order 12829, "NISP" Functions: The NISPPAC members advise the Chair of the Committee on all matters concerning the policies of the NISP, including recommending changes to those policies as reflected in the Order, its implementing directives, or the operating manual established under the Order, and serves as a forum to discuss policy issues in dispute.

NISPPAC Working Groups

- Policy-NEW Replacing the NISPOM Re-Write
- NID
- Clearance
- Insider Threat
- Risk-based Security Oversight (RISO)-Formally DiT
- NISA
- NCCS-NEW

National Level Policy

- NISPOM Rewrite
- Conforming Change 3
- CUI Note: 2019-XX-Assessing Security Requirements for CUI within Non-Federal Information Systems
- Draft ISLs
 - ✓ Investments in Marijuana
 - ✓ Usage of EPL List and Crosscut Shredders
 - ✓ SEAD 3-Adverse Information Reporting
 - ✓ Tailored Security Plan
 - √ Top Secret Accountability (pending release for review)

Trusted Workforce 2.0: Industry Observations

Policy delays

- National Security Policy Memo (NSPM) to be signed by the President.
- SEC/EAs releasing Executive Correspondence (EC) after the NSPM that will:
 - Initiate an improved investigative process, paving the way for the new vetting policy to follow

New policy

- ODNI Guidance for Reciprocal Acceptance of Deferred Periodic Reinvestigations (29 Sep19)
 - Not publicly available to industry due to FOUO marking

Industry Concerns

- Policy timelines
- Transition from Reciprocity to Transfer of Trust
- Transition of Continuous Evaluation to Continuous Vetting

Security Executive Agent Directives (SEADs)

- SEAD 1: SECEA Authorities and Responsibilities
- SEAD 2: Use of Polygraphs
- SEAD 3: Reporting Requirements for Personnel with Access to Classified
- SEAD 4: National Security Adjudicative Guidelines
- SEAD 5: Social Media usage in Investigations and Adjudications
- SEAD 6: Continuous Evaluation
- SEAD 7: Reciprocity
- SEAD 8: Interim Clearances (IN DRAFT)

All SEADs can be found here: https://www.dni.gov/index.php/ncsc-how-we-we-work/ncsc-security-executive-agent/ncsc-policy

SEAD 3: Minimum Reporting Requirements

- Signed December 14, 2016 Implementation June 12, 2017.
- All covered persons are to report "CI Concerns" on any other covered person. Previously was limited to only those within an organization. Change raises possible legal and other concerns.
- "Failure to comply with reporting requirements...may result in administrative action that includes, but is not limited to revocation of national security eligibility."
- Pre-approval for foreign travel will be required for collateral clearance holders once it is incorporated into the new NISPOM. This will impose a new and large burden on industry and CSAs to handle the influx of reports that this will now generate. (ISL will not require preapproval but will require tracking and reporting).
- **DNI SEAD 3 TOOLKIT is online.**
- Collateral under the NISP will not have to comply until incorporated into NISPOM Conforming Change 3 and resulting ISL.
- Draft ISL outlines FSO in collaboration with ITPSO responsible for tracking and monitoring all foreign travel for "covered" personnel
- Other CSAs will issue their own implementation guidance.

SECURITY EXECUTIVE AGENT **DIRECTIVE 3**

REPORTING REQUIREMENTS FOR PERSONNEL WITH ACCESS TO CLASSIFIED INFORMATION OR WHO HOLD A SENSITIVE POSITION

(EFFECTIVE: 12 JUNE 2017)

- A. AUTHORITY: The National Security Act of 1947, as amended; Intelligence Reform and Terrorism Prevention Act of 2004, as amended; Executive Order (EO) 10450, Security Requirements for Government Employment, as amended; EO 12968, Access to Classified Information, as amended; EO 13467, Reforming Processes Related to Suitability for Government Employment, Fitness for Contractor Employees, and Eligibility for Access to Classified National Security Information; EO 13549, Classified National Security Information Program for State, Local, Tribal and Private Sector Entities; Presidential Decision Directive/NSC-12, Security Awareness and Reporting of Foreign Contacts; Performance Accountability Council memorandum, Assignment of Functions Relating to Coverage of Contractor Employee Fitness in the Federal Investigative Standards, 6 December 2012; and other applicable provisions of law.
- B. PURPOSE: This Security Executive Agent (SecEA) Directive establishes reporting requirements for all covered individuals who have access to classified information or hold a sensitive position. Nothing in this Directive should be construed to limit the authority of agency heads to impose additional reporting requirements in accordance with their respective authorities
- C. APPLICABILITY: This Directive applies to any executive branch agency or covered individual as defined below.
- D. DEFINITIONS: As used in this Directive, the following terms have the meanings set forth
- 1. "Agency": Any "Executive agency" as defined in Section 105 of Title 5, United States Code (U.S.C.), including the "military department," as defined in Section 102 of Title 5, U.S.C., and any other entity within the Executive Branch that comes into possession of classified information or has positions designated as sensitive.
- 2. "Classified national security information" or "classified information": Information that has been determined pursuant to EO 13526 or any predecessor or successor order, or the Atomic Energy Act of 1954, as amended, to require protection against unauthorized disclosure.
- 3. "Cohabitant": A person with whom the covered individual resides and shares bonds of affection, obligation, or other commitment, as opposed to a person with whom the covered individual resides for reasons of convenience (e.g. a roommate).
 - 4. "Controlled Substance": Any controlled substance as defined in 21 U.S.C. 802.
 - 5. "Covered Individual":

UNCLASSIFIED

SEAD 6: Continuous Evaluation

- SEAD 6: Continuous Evaluation signed January 12, 2018
- 1.1 Million now enrolled in CE
- OUSD(I) Memo dated 12/19/2016: DSS will be responsible for the CE mission.
- DSS actively enrolling both government and industry in CE.
- CE dates will be put in DISS, but not JPAS. Historical CE dates will be included dating back to 2012.
- CE replacing PRs is still an interim process and could be subject to change.
- If your customer requires an investigation instead of CE, please email dss.ncr.dss-isfo.mbx.psmoi@mail.mil for assistance.

UNDER SECRETARY OF DEFENSE 5000 DEFENSE PENTAGON WASHINGTON, DC 20301-5000

DEC 1 9 2016

UNCLASSIFIED

SECURITY EXECUTIVE AGENT DIRECTIVE 6

CONTINUOUS EVALUATION

(EFFECTIVE: 12 JANUARY 2018)

- A. AUTHORITY: The National Security Act of 1947, as amended; Intelligence Reform and Terrorism Prevention Act of 2004, as amended; Security Clearance Information Act, as amended; Executive Order (EO) 12968, Access to Classified Information, as amended; EO 13467, Reforming Processes Related to Suitability for Government Employment, Fitness for Contractor Employees, and Eligibility for Access to Classified National Security Information, as amended; EO 13549, Classified National Security Information Program for State, Local, Tribal and Private Sector Entities, and other applicable provisions of law.
- B. PURPOSE: This Security Executive Agent (SecEA) Directive establishes policy and requirements for the continuous evaluation (CE) of covered individuals who require continued eligibility for access to classified information or eligibility to hold a sensitive position.
- C. APPLICABILITY: This Directive applies to any executive branch agency, authorized adjudicative agency, authorized investigative agency, and covered individuals as defined below.
- D. DEFINITIONS: As used in this Directive, the following terms have the meanings set forth
- 1. "Agency": Any "executive agency" as defined in Section 105 of Title 5. United States Code (U.S.C.), including the "military departments," as defined in Section 102 of Title 5, U.S.C., and any other entity within the executive branch that comes into possession of classified information or has positions designated as sensitive.
- 2. "Authorized adjudicative agency": An agency authorized by law, executive order, or designation by the SecEA to determine eligibility for access to classified information in accordance with EO 12968, as amended, or eligibility to hold a sensitive position.
- 3. "Authorized investigative agency": An agency authorized by law, executive order, or designation by the SecEA to conduct a background investigation of individuals who are proposed for access to classified information or eligibility to hold a sensitive position or to ascertain whether such individuals continue to satisfy the criteria for retaining access to such information or eligibility to hold such positions.
- 4. "Classified national security information" or "classified information": Information that has been determined, pursuant to EO 13526, any predecessor or successor order, or the Atomic Energy Act of 1954, as amended, to require protection against unauthorized disclosure

SEAD 7: Reciprocity

- "Background investigations...conducted by an authorized investigative agency...shall be reciprocally accepted for all covered individuals except...[if] the most recent background investigation is more than seven years old unless otherwise directed by the SecEA...While not required, agencies may accept background investigations more than seven years old on a case-by-case basis."
 - This wording may cause challenges for cases enrolled in CE that will not have an investigation date within 7 years.

• Timelines:

- "Reciprocity determinations for national security background investigations and adjudications shall be made within five business days of receipt by the agency's personnel security program for security processing."
- "Agencies in possession of the investigative record shall comply with requests for the investigative record within 10 business days."

UNCLASSIFIED

SECURITY EXECUTIVE AGENT DIRECTIVE 7

RECIPROCITY OF BACKGROUND INVESTIGATIONS AND NATIONAL SECURITY
ADJUDICATIONS

(EFFECTIVE: NOVEMBER 9, 2018

- A. AUTHORITY: The National Security Act of 1947, as amended; Intelligence Reform and Terrorism Prevention Act of 2004, as amended (50 U.S.C. 334); Executive Order (EO) 12968, Access to Classified Information, as amended; EO 13467, Reforming Processes Related to Suitability for Government Employment, Fitness for Contractor Employees, and Eligibility for Access to Classified National Security Information, as amended: EO 13349, Classified National Security Information Program for State, Local, Tribal and Private Sector Entities; and other applicable provisions of law.
- B. PURPOSE: This Security Executive Agent (SecEA) Directive establishes requirements for reprocal acceptance of background investigations and national security adjudications for initial or continued eligibility for access to classified information or eligibility to hold a sensitive position.
- C. APPLICABILITY: This Directive applies to any executive branch agency, authorized investigative agency, and any authorized adjudicative agency, as defined below, conducting background investigations and adjudications for initial or continued eligibility for access to classified information or eligibility to hold a sensitive position.
- D. DEFINITIONS: As used in this Directive, the following terms have the meanings set forth below:
- "Agency": Any "executive agency" as defined in Section 105 of Title 5, United States Code (U.S.C.), including the "military department," as defined in Section 102 of Title 5, U.S.C., and any other entity within the executive branch that comes into possession of classified information or has positions designated as sensitive.
- "Authorized adjudicative agency": An agency authorized by law, EO, or designation by the SeeEA to determine eligibility for access to classified information in accordance with EO 12968, as amended, or eligibility to hold a sensitive position.
- 3. "Authorized investigative agency": An agency authorized by law, EO, designation by the Soulability and Credentialing Executive Agent, or designation by the SecEA to conduct a background investigation of individuals who require a determination of suitability for government employment, eligibility for logical or physical access, contractor employee fitness, fitness of employees in the excepted service (other than a position subject to suitability), eligibility for access to classified information, or eligibility to hold a sensitive position.
- 4. "Classified national security information" or "classified information". Information that has been determined pursuant to EO 13526 or any predecessor or successor order, or the Atomic Energy Act of 1954, as amended, to require protection against unauthorized disclosure.

Risk-Based Industrial Security Oversight (RISO)

(Formerly DCSA in Transition)

- •Establishes an ongoing process to continuously refine DCSA resource focus
- Using national security information to determine resource allocation
- Allows field-force to use local knowledge to adjust facility priority

Security Baseline

- •Looks to Industry to identify assets
- •Includes security controls currently implemented by Industry
- Provides for DCSA review and establishes foundation for Tailored Security Program

Security Review

- Focuses on protection of assets identified in the Security Baseline
- Assesses facility security posture, considers threats, and identifies vulnerabilities
- •Results in Summary Report and POA&M to develop the Tailored Security Program

Tailored Security Program (TSP)

- •Builds on Security Baseline, Summary Report, POA&M, and recommendations developed during TSP
- Documents effectiveness of security controls
- Applies countermeasures to TSP based on threat

Active Monitoring

- •Establishes recurring reviews of TSPs by DCSA and Industry
- Provides recommendations from DCSA based on changing threat environment
- •Ensures security controls documented in TSP are still effective

Source: www.dcsa.mil/mc/ctp/riso/

Ongoing Business: RISO

Industry Questions / Concerns

- Very little engagement between DCSA and RISO/DiT Industry Focus Group over the past 7 months
 - March informational meeting on Security Rating Score
 - July telecon on RISO status
- Variances in implementation between DCSA field offices and inconsistencies within DCSA activities on RISO (Engagement Terminology)
- Industry adoption of elevated Industrial Security Requirements Tailored Security Plan (TSP's)
- Smaller companies without key technologies will not be assessed and the vulnerabilities this might introduce into the supply chain
- Coordination w/ GCA's and the concern about the impacts of introducing vulnerability information to the GCA outside the contract scope

Industry Proposed Solutions/Requests

- Industry requests the opportunity for collaboration when coordinating with the GCA's on vulnerability information
- Reengage DCSA/RISO Industry Focus group partnership and collaboration. What is the status of the Security Rating Score to Replace Enhancement Matrix

Activity	Asset ID	Business Processes	12x13	TSP	Rating
Comprehensive Security Review	Yes	Yes	Yes	Yes	No
Targeted Security Reviews	Yes	Yes	Yes	No	Yes
Enhanced SVAs	Introduce	Introduce	Introduce	No	Yes
Meaningful Engagements	No	No	No	No	No

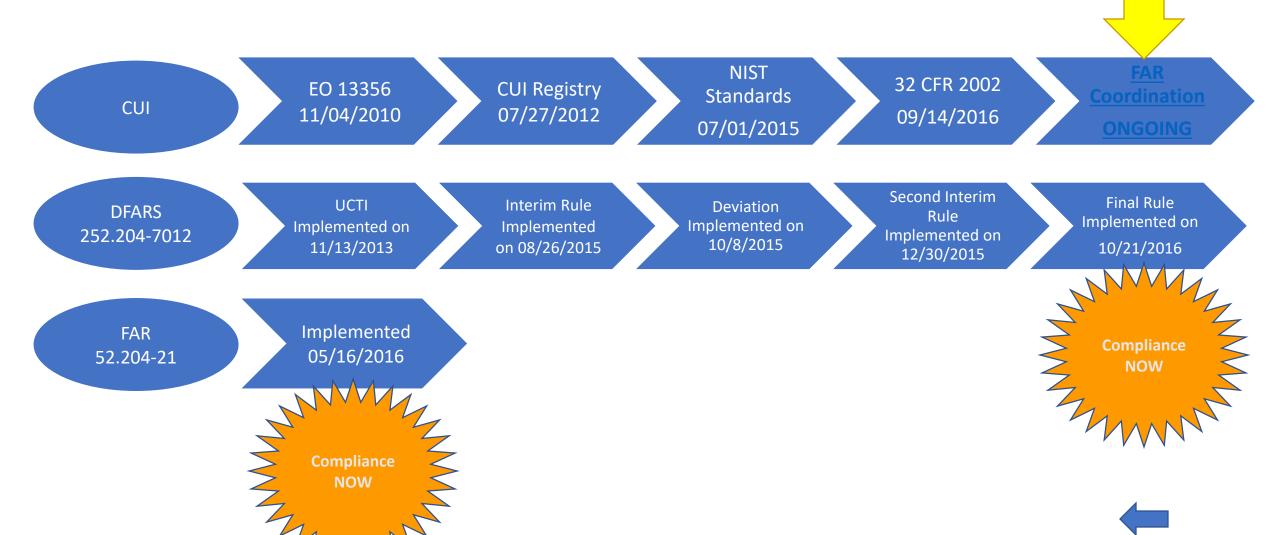

NATIONAL ACCESS ELSEWHERE SECURITY OVERSIGHT CENTER (NAESOC)

- 500 facilities from across the United States have been selected to participate, but the number will grow to 2,000 by October 2019.
- A variation of the traditional DCSA Field Office, specifically designed to support non-possessing facilities regardless of their physical location.
- This consolidated and centralized approach to non-possessor facilities provides the DCSA Director with a flexible and efficient method for addressing industry compliance issues.
- The NAESOC will be a centralized resource for both government and industry partners providing communications and oversight for non-possessor requirements and issues.

CUI/CDI/Federal Contract Information

29

Cybersecurity Maturity Model Certification (CMMC)

- January 2020, DoD will be implementing CMMC across industry. companies will be required to achieve a CMMC level of 1-5 in order to perform work on DOD initiatives.
- Small businesses should be able to easily achieve a CMMC level of 1.
- The CMMC model will be agile enough to adapt to emerging and evolving cyber threats to the DIB sector. A neutral 3rd party will maintain the standard for the Department.
- The CMMC will include a center for cybersecurity education and training.

Policy Changes and Impacts on our Radar

Industry Questions / Concerns

- New proposed Facility Pre-decisional Security Rating Score (SRS)
- Continuous Evaluation (CE) and lack of understanding concerning terminated employees
- Agencies not recognizing reciprocity of individuals in CE that are out of scope
- Deferring of closed investigations pending adjudication at the DOD CAF and what deferred means
 - Impact to reporting requirements for timeliness of adjudications
- Future OUSDI guidance on use of marijuana, ownership of stocks involved with marijuana and use of other products derived from marijuana (marijuana/CBD oil purchased for your pet) is this reportable?
- NSA released new Evaluated Products List (EPL) and removed equipment that had been previously approved for DVD destruction. Industry was left in limbo with no guidance from sponsoring agencies.
 - Draft ISL received for review concerning guidance from DCSA when an EPL is updated, awaiting feedback on comments
- Accounting for Top Secret material when in electronic form
- DMDC JPAS report feeds into other systems
- Too much all at once-new systems, new ISL, CMMC, RISO, CUI, Delivering Uncompromised

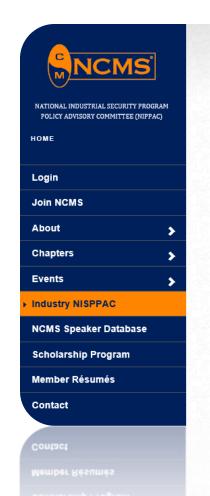

Industry Proposed Solutions / Requests

Implementation is difficult when Industry expertise is not leveraged early in the planning process. Collaborating with Industry will reduce some of the challenges when executing new national security policy.

Industry NISPPAC on the Web

https://classmgmt.com/nisppac.php

NATIONAL INDUSTRIAL SECURITY PROGRAM POLICY ADVISORY COMMITTEE (NISPPAC)

Industry Representatives' Informational Site

About	NISPPAC Industry	MOU	Working	News &	Policy	Official
	Members	Group	Groups	Resources	Timeline	Website

In April 1990, President George Bush directed the National Security Council to explore the creation of a single, integrated industrial security program that might result in cost savings and improved security protection.

Recommendations from representatives from government and industry were invited to participate in an initiative intended to create an integrated security framework. This initiative led to the creation of Executive Order (EO) 12829, which established the National Industrial Security Program (NISP), a single, integrated, cohesive security program to protect classified information and to preserve our Nation's economic and technological interests.

EO 12829 also established the National Industrial Security Program Policy Advisory Committee (NISPPAC). The NISPPAC is chaired by the Director of the Information Security Oversight Office (ISOO), who has the authority to appoint sixteen representatives from Executive Branch agencies and eight non-governmental members. The eight non-governmental members represent the approximately 13,000 cleared defense contractor organizations and serve four year terms.

This website serves as a way for industry to gain a better understanding of the non-governmental members involvement in order to help the community stay abreast of the ever-changing security posture.

To watch a short video on the history of the NISP, click here

Charter 🔁 | Bylaws 🔁 | Upcoming Public NISPPAC meeting

Where do we go from here?

- Industry engagement at all levels and often
- Identify issues quickly with solutions
- Industry unity in how we communicate to the government
- What are the Top 5-10 Industry Issues?
- Don't suffer in silence-Bring Issues forward

BESIDES THAT, HOW ARE THINGS GOING?
