THURSDAY, MAY 2

8:00 am – 5:00 pm BOARD OF DIRECTOR MEETING
CIRRUS BALLROOM D

The NDIA has a policy of strict compliance with federal and state antitrust laws. The antitrust laws prohibit competitors from engaging in actions that could result in an unreasonable restraint of trade. Consequently, NDIA members must avoid discussing certain topics when they are together at formal association membership, board, committee, and other meetings and in informal contacts with other industry members: prices, fees, rates, profit margins, or other terms or conditions of sale (including allowances, credit terms, and warranties); allocation of markets or customers or division of territories; or refusals to deal with or boycotts of suppliers, customers or other third parties, or topics that may lead participants not to deal with a particular supplier, customer or third party.

THANK YOU TO OUR SPONSORS

PLATINUM SPONSOR

Empower features an attractive and powerful user interface that provides immediate productivity gains for control account managers, program managers, corporate executives, portfolio managers, support staff, and oversight organizations. Empower is specifically designed to quickly locate problem areas, identify trends, display element-of-cost information, and graphically display schedule Gantt information. In addition to providing powerful analytics to all program stakeholders, Empower streamlines the monthly reporting cycle by providing workflow-enabled narrative analysis collection with integrated corrective action tracking. Finally, Empower generates standard data-driven audit metrics used during compliance and surveillance reviews

conducted by government organizations such as the DCMA and the DOE. Encore customers include government organizations, laboratories, universities and commercial contractors who execute large projects and programs. Government customers include organizations such as NASA, the Department of Energy (DOE), US Intelligence Community (IC) Agencies, the Missile Defense Agency (MDA), and the Defense Acquisition University (DAU). Commercial customers include large shipyards, operators of DOE laboratories and traditional aerospace and defense firms. Empower is compatible with virtually every earned value engine and schedule management tool.
