WEDNESDAY, OCTOBER 23

General Session

Salon 1 – 3
8:00 – 11:45 am

WHO WE ARE

The National Defense Industrial Association is the trusted leader in defense and national security associations. As a 501(c)(3) corporate and individual membership association, NDIA engages thoughtful and innovative leaders to exchange ideas, information, and capabilities that lead to the development of the best policies, practices, products, and technologies to ensure the safety and security of our nation. NDIA's membership embodies the full spectrum of corporate, government, academic, and individual stakeholders who form a vigorous, responsive, and collaborative community in support of defense and national security. NDIA is proud to celebrate 100 years in support of our warfighters and national security. The technology used by today's modern warfighter was unimaginable 100 years ago. In 1919, BG Benedict Crowell's vision of a collaborative team working at the intersection of science, industry, government, and defense began what was to become the National Defense Industrial Association. For the past century, NDIA and its predecessor organizations have been at the heart of the mission by dedicating their time, expertise, and energy to ensuring our warfighters have the best training, equipment, and support. For more information, visit NDIA.org

WHO WE ARE

The Aerospace Industries Association (AIA) was founded in 1919 and is the largest and oldest U.S. aerospace and defense trade association, representing 347 aerospace and defense manufacturers and suppliers with approximately 844,000 employees. Our members represent the leading manufacturers and suppliers of civil, military and business aircraft, missiles, space systems, aircraft engines, material and related components, equipment services and information technology. Visit aia-aerospace.org for more information.

In lieu of speaker gifts, a donation is being made to the Fisher House Foundation.

HARASSMENT STATEMENT

NDIA is committed to providing a professional environment free from physical, psychological and verbal harassment. NDIA will not tolerate harassment of any kind, including but not limited to harassment based on ethnicity, religion, disability, physical appearance, gender, or sexual orientation. This policy applies to all participants and attendees at NDIA conferences, meetings and events. Harassment includes offensive gestures and verbal comments, deliberate intimidation, stalking, following, inappropriate photography and recording, sustained disruption of talks or other events, inappropriate physical contact, and unwelcome attention. Participants requested to cease harassing behavior are expected to comply immediately, and failure will serve as grounds for revoking access to the NDIA event.

ANTITRUST POLICY

NDIA has a policy of strict compliance with federal and state antitrust laws. The antitrust laws prohibit competitors from engaging in actions that could result in an unreasonable restraint of trade. Consequently, NDIA members must avoid discussing certain topics when they are together at formal association membership, board, committee, and other meetings and in informal contacts with other industry members: prices, fees, rates, profit margins, or other terms or conditions of sale (including allowances, credit terms, and warranties); allocation of markets or customers or division of territories; or refusals to deal with or boycotts of suppliers, customers or other third parties, or topics that may lead participants not to deal with a particular supplier, customer or third party.

AGENDA

SUNDAY, OCTOBER 20

5:30 – 7:30 pm

PREMIER SPONSOR HAPPY HOUR

CAMELBACK NORTH GARDEN

SPONSORS

PREMIER SPONSOR

Xcelerate Solutions (Xcelerate) is a mission-driven consultancy focused on making America safer by solving complex problems and accelerating client results. Xcelerate delivers innovative solutions that integrate Project Management, Technology Innovation, and Continuous Process Improvement across the DoD and the Federal Government. They have leveraged these broad capabilities in support of the end-to-end Personnel Vetting mission for more than decade. With experience and expertise from policy and strategy to systems and operations, Xcelerate continues to play a key role in today's Personnel Vetting modernization efforts.

Xcelerate delivers full lifecycle solutions, beginning with creation of an actionable strategy aligned with client objectives and a roadmap to achieve those objectives. Their design, development, and integration capabilities help clients operationalize the plan. Xcelerate brings experience in both traditional and Agile project management, as well as a proven ability to transition traditional programs to Agile. Once a solution is implemented, Xcelerate provides consulting and IT services to ensure it operates as designed, driving mission critical, high-volume transactions, and supporting customers with a focus on continuous improvement.

An ISO 9001, ISO 20000-1, and ISO 27001 certified company, Xcelerate prides itself on delivering high-quality services to clients in accordance with CMMI-SVC Level 4 appraised process.

SUPPORTING SPONSORS

THOMSON REUTERS
SPECIAL SERVICES

The banner features a blue background with a world map and binary code. On the left, there is a vertical strip containing the NDIA logo (with the text 'AT THE HEART OF THE MISSION' and '1919 2019') and the AIA logo (with the text 'AIA AEROSPACE INDUSTRIES ASSOCIATION' and '100 YEARS'). A large white arrow points to the right. At the bottom left, there are five icons: a brick wall, a padlock, a target, a person, and an eye, each with a copyright symbol below it.

SPRING 2020 JOINT NDIA/AIA INDUSTRIAL SECURITY CONFERENCE

This bi-annual conference, presented in partnership with the Aerospace Industries Association (AIA), serves as the forum for executive-level security leadership and policy-makers across the federal agencies and U.S. Industry to convene and address major government security topics. Don't miss this opportunity for candid discussion, high-level networking, and updates on important topics.

Key topics include: continuing security clearance reforms and implementation | insider threat guidance | transitioning cyber security requirements and policy | sharing knowledge of “the business” of security | late-breaking special security and NISPOM issues, and more.

A series of moderated expert panels and key leadership speakers provide insights from diverse perspectives, enabling participants to identify critical issues and needs in order to develop government-and-industry-partnered creative solutions.

TAKE THE GUESSWORK OUT OF INSIDER THREAT DETECTION.

Introducing Risk-Based Insider Threat Models from SIMS® Software.

At SIMS Software, we've elevated insider threat detection into a science. Our brand-new SIMS Insider Threat Utility empowers you to establish proprietary threat models based on the risk indicators that matter most to your organization.

SIMS® Insider Threat Utility

The Science Behind SIMS:

When it comes to insider threats, one size doesn't fit all. A red flag for one company may be inconsequential for another – so we designed the SIMS Insider Threat Utility with complete personalization in mind.

Insider Threat Program Senior Officials (ITPSOs) can custom-create highly specific threat models by prioritizing a variety of risk indicators, such as clearance level, SCI and other accesses, foreign travel and contacts, and incident/violation data. Working with SIMS Dashboards, this solution systematically evaluates personnel records against the threat model and presents extensive filtering options. Graphic displays show personnel in risk categories (low to severe), pinpointing those with high/critical risk indicators for mitigation actions.

The SIMS Insider Threat Utility is available starting in SIMS version 7.23 and newer releases. To schedule a complimentary demo with one of our security experts, please e-mail info@simssoftware.com.
