

The background of the entire page is a blue-toned graphic. It features a grid pattern with various data visualization elements. In the upper left, there is a line graph with two series: 'Potential Growth' and 'Average Growth'. The y-axis ranges from -2.50 to 2.50. The x-axis shows years from 2011 to 2016f. A prominent feature is a large, glowing blue line graph that trends upwards from left to right. In the foreground, the silhouettes of approximately ten business professionals in professional attire are shown from the waist up, standing and facing various directions. The NDIA logo is positioned in the top right corner within a dark grey shield-like shape.

NDIA
AT THE HEART
OF THE MISSION

2020

NDIA has a policy of strict compliance with federal and state antitrust laws. The antitrust laws prohibit competitors from engaging in actions that could result in an unreasonable restraint of trade. Consequently, NDIA members must avoid discussing certain topics when they are together at formal association membership, board, committee, and other meetings and in informal contacts with other industry members: prices, fees, rates, profit margins, or other terms or conditions of sale (including allowances, credit terms, and warranties); allocation of markets or customers or division of territories; or refusals to deal with or boycotts of suppliers, customers or other third parties, or topics that may lead participants not to deal with a particular supplier, customer or third party.
