PROCUREMENT

WHO WE ARE

The Procurement Division is a key component of NDIA's Policy Team, which monitors and advances sound and practical procurement/acquisition policies on matters that affect government/industry relationships relating to this important process. The Division ensures that government obtains requisite supplies and services at an equitable price with the least possible disruption of industrial practices. Accordingly, the Division maintains a close working relationship with government and industry agencies while conducting special studies to provide government with industry perspectives on policies, practices, needs, and problems. In addition to offering members the opportunity to sit on industry/government committees, the Division engages in the preparation and filing of amicus curiae briefs before the appeals courts and the U.S. Supreme Court.
