SUPPLEMENTARY INFORMATION: The purpose of the assessment is to support an internal Department of Defense (DoD) effort to reduce compliance impacts that do not achieve the benefits intended by contracting statutes. As part of this assessment, DPAP would like to receive the views of interested parties identifying particular impacts associated with specific contracting statutes. There is an extensive body of law and regulation that govern the Department's business. We are seeking to better understand the impact experienced by industry resulting from requirements based on statute. Our initial review identified approximately 400 DFARS requirements based solely on statute. The Director, DPAP, is soliciting public input to identify particular impacts associated with specific contracting statutes, with reference to—

- Particular impacts associated with specific contracting statutes;
- Why the identified impact does not achieve the intended benefit of the identified legislation, or why the intended benefit is not helpful to the Department; and
- Any recommendations for alternative approaches to achieve the intended benefit of the identified legislation.

We are also interested in candidate DFARS and component supplements requirements that, although not based in statute, warrant similar consideration.

Manuel Quinones,

Editor, Defense Acquisition Regulations System.
