DoD ATS Designated Representative's Report

DoD ATS Executive Directorate Office
September 2016

DoD ATS Executive Directorate -- AMB

DoD ATS

- Last DoD ATS Management Board (AMB) meeting was conducted last May at the NAVAIR Washington Liaison Office (WLO) in Arlington VA
    - Reviewed each Service's current and future ATS plans
    - Each of the active Joint Service IPT Chairs summarized their Team's accomplishments and plans
    - Again, great deal of discussion on Cyber Security requirements

- Next AMB meeting is scheduled for Wednesday afternoon here at the Disney Hotel complex
    - Similar agenda to the above with a focus on joint services IPT progress

DoD ATS Executive Directorate – Other

- The AUTOTESTCON 2016 DoD ATS Executive Plenary:
  - "Evolving DoD TPS Development/Sustainment: Environment, Requirements and Challenges"

- The DoD ATS Executive Directorate web site has been stagnant since 2012
  - Changes have been locked down due to procedural change – Cyber Security policy at work
  - The former web address http://www.acq.osd.mil/ats
  - New address http://www.acq.osd.mil/log/MPP/ats.html
    - Still needs a bit of work
    - Still public

- DoD ATS ED documentation update status:
  - 2016 Revision A of the "DoD ATS Selection Process" released
  - 2017 version of the "DoD ATS Master Plan" is in process
  - "DoD ATS Handbook" (for DoD Platform program managers) will be undated

Thank You.
