SW Committee – Status

Proposed 2016/2017 Tasks:

- Support the JFAC by building a framework for benchmarking industry processes, techniques, tools, architecture and design strategies, and decision-making rules for software assurance, at each stage of the full life cycle

Deliverables/Products

- An industry benchmarking questionnaire for data collection.
- A series of white papers documenting industry processes, techniques, tools, architecture and design strategies, and decision-making rules for software assurance

Schedule/Resources

- Questionnaire complete by 1 May 2017
- Data gathering complete by 30 Sept 2017
- Resources:
  - Paul Croll, PR Croll, LLC, Lead
  - JoAn Ferguson, General Dynamics
  - Gary Hafen, Retired Lockheed Martin
  - Cheryl McIntyre, Lockheed Martin.
  - Cindy Molin, Raytheon
  - Ken Nidiffer, SEI
  - Shawn Rahmani, Boeing
  - Rick Selby, Northrop Grumman

Issues / Concerns:

- Support for project lead
- Volunteer labor – lots of work to be done.
- Industry access/willingness to participate
