8:00 AM – 12:00 PM  Facilities Tour- Naval Air Warfare Center
A guided tour of the test facilities that are critical to Naval Aviation.
1:30 PM – 4:30 PM  Industrial Committee on Test and Evaluation Meeting
ICOTE meeting participation is by invitation of the Committee only

Chair: Mike Rabens, Northrop Grumman
Co-chair: Honorable Robert Behler, Director, Operational Test and Evaluation

ICOTE Leaders:
Dr. Brian Hall, Acting DASD(DT&E)
Dr. Steve Hutchison, Director of T&E, Homeland Security

Discussion Topic: The T&E Impacts of Model-based Systems Engineering, Digital Thread/Digital Twin, and Model-based Acquisition

The Tour
Facilities tours are a big part of the annual conference. This year we are delighted to be hosted by the Naval Air Warfare Center. Naval Air Station (NAS) Patuxent River (PAX) is the U.S. Navy’s headquarters for the research, development, test and evaluation of all Navy aircraft, aircraft components and related systems needed to carry out their military mission. It supports the Naval Aviation Enterprise in the development and fielding of quality aviation vehicles, weapons systems and related products for the Operating Forces.

Industrial Committee on Test and Evaluation Meeting
The Industrial Committee on Test and Evaluation (ICOTE) is run by the Test & Evaluation Division with a mission to gain feedback from senior industry representatives, discuss OSD and military service policies which affect relationships with suppliers, discuss emerging issues in government and industry which affect the readiness and capabilities of U.S. defense systems, and to cooperate on projects of mutual benefit to the ICOTE participants. Participation is limited to key T&E participants from industry and government and is by invitation only.

NDIA Test and Evaluation Division
The mission is to foster informed dialogue between the private and public sectors on T&E issues, be champions of T&E policies that improve developmental and operational T&E processes and build partnerships between the Defense Industrial Base and the Departments of Defense and Homeland Security around critical T&E issues. The division hosts this annual symposium and quarterly meetings of the Industrial Committee on Test & Evaluation.
