Overview

- Mission Statement
- Points of Contact
- Notional Schedule
- Discussion

SLATE ATD

Technology Targets to De-Risk

S&T Needs

Risk Reduction Funding

Combat Air Forces Advanced Live Operational Planning (CAFALOT) Development Planning

Locking Down F-35 LVC Requirements

Threat Emulations

Waveforms

SCARS

LVC Enterprise

Takeaways

LVC Points of Contact

Ms. Linda Rutledge, PEO/ACS

Dr. Winston "Wink" Bennett, 711 HPWRHA

Mr. John "Moses" Noah, 711 HPWRHA

Dr. Lonna Hartley, AFLCMC/XZA

Col Daniel "Ghandi" Marticello, AFLCMC/WNS

Lt Col Aaron Tucker, AFLCMC/WNS

Disclaimer: The information provided herein represents the Government's best understanding of the procurement as of the presentation date. This information should be considered preliminary and subject to change.

Mission Statement

Develop, integrate, and sustain USAF Live, Virtual, Constructive training systems to support the full range of operation training resulting in combat mission ready operators

Proposed LVC Management Framework

LVC Planning Schedule (Notional)

Hashed boxes denote unfunded efforts

Combat Air Forces Advanced Live Operational Trng (CAFALOT)

- Scope

System of Systems assessment

Core Functions and training requirements

Understand competitive tech base and maturity

SLATE ATD tech maturity

Identify/mitigate tech maturity to training effectiveness gap

Analysis of Tradespace

Address 5thGen training gaps (5 May 12 ICD)

Work with Lockheed Martin to identify technology concepts/alternatives
not requiring significant OFP changes

F-35 pilot training SME on contract to evaluate LM/other technology
concepts against MOEs, MOPs, and MOSs for training gap mitigations

Key Takeaways

- AFMC Enterprise effort underway
 - Integrating LVC Risk Reduction & Acquisition
- **SLATE – Identify additional LVC risks**
 - **Need additional S&T to identify needs**
 - Need additional RDT&E to deliver capability
 - Need additional Funding
- **F-35 LVC Requirements being locked down**
 - Ongoing DP process, report due end of FY17
- **LVC Support Requested**
 - Define solid requirements NLT 4QFY18
 - Establish FY20 Planning Wedge

LVC TS Capability Delivery

- F-35 Platform focus-IOC 2025
- Integrate w/ VTTC, Navy, Test Enterprises
- Leverage SCARS
 - Common databases, cybersecurity, affordability
- Utilize DMO standards
 - Add security levels
- Future opportunities
 - 4th-/5th-gen
 - Bomber
 - SOF
 - Trainer

What The SLATE ATD Won't Address

- F-35 SIL testing, OFP mods or potential flight testing (*an original SLATE objective*)
- Cyber security vulnerability assessment/remediation
- MILS accreditation across all four levels
- Alternative processor configurations
- Alternative radio/5G-ATW combinations
- CAF OTI investments leverage/complementation
- DMON certification of LVC enterprise and connectivity to larger community
- Full MDS OFP mods
 - Additional OFP mods required for full F-15/F-18 LVC capability
 - Wider range of sensor modeling (both 4th and 5th Gen)

S&T Needs and RDT&E Risk Reduction Beyond SLATE

- COMACC/AFRL discussions related to additional funding and sourcing (~\$83M) to support further tech integration and F-35 inclusion out to FY23
 - Rationale and key areas of additional work to improve tech maturation and transition is done, initial estimates accomplished
 - Define additional S&T and other (e.g., RDT&E, etc.) funded needs beyond ATD to ensure future IOC (AFRL/AFLCMC)
 - Work with industry partners to refine cost estimate/emphasis areas
 - Define LVC priorities, create timeline and key activities to meet IOC, and if needed, identify "acceleration" options (AFLCMC)
 - Sponsorship and guidance for needs: IOC for LVC; Advocate for access to target platforms (e.g., F-15E and F-35, others) (ACC)

Discussion: LVC Management

HAF: Strategy, Policy and Oversight

Vision: Paradigm shift from “L” to “V”

Authority for systems operations (compliance w/ security & standards)

Lead CFL: Requirements

Air Superiority CFL

Initial focus on F-35 training requirements

PEO ACS: Acquisition Lead

Consolidate multiple lines of effort into program(s) of record

Acquisition planning and execution

Inform requirements

MAJCOMs: Supported Customers

Provide inputs to GPA Core Function Lead

ACC, AFGSC, AMC, AFSPACE, AFSOC, AETC
