

Air Force Global Strike Command

Deter...Assure...Strike!

NTSA Simulator & Training Community Forum

**Mr. Dan Willson
Requirements Division
AFGSC**

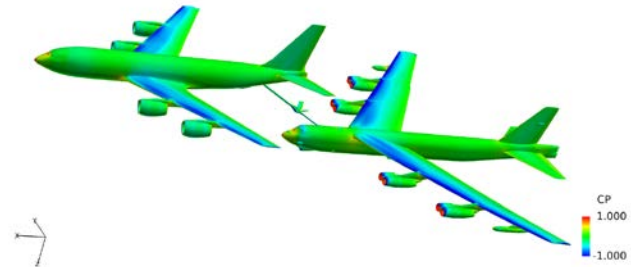

Global Strike Basing

Near Term Requirements

- **MAF Virtual Air Refueling**
 - **Smarter aero-modeling simulations**

- **Recapitalization of 1980's technology to sustain training until 2050**

- **Integrated Live, Virtual, and Constructive (LVC) Training**
 - **Blended datalinks - bringing constructive to the cockpit**
 - **Cybersecurity / Cross Domain Solution for System High Devices**
 - **Interoperability of threat generation systems**
 - **Modern Range Infrastructure**

Future Requirements

- Full integration of 5th Generation aircraft capabilities

- VTTC integration of B-2
- B-21 Raider in development

- Continued partnerships with government & industry

- Collaborative workshops to solve technical challenges
- Intellectual property / proprietary rights

Conclusion

“Our Airmen must be ready and equipped with the right tools and training to be effective in day-to-day deterrence and assurance operations, as well as ready to strike with either conventional or nuclear capabilities when called upon to do so.”
